

OPERATOR / USER COURSE FOR ALL KMDSI HELMETS

KIRBY MORGAN DIVE SYSTEMS INCORPORATED MAINTENANCE AND REPAIR TECHNICIAN TRAINING

- Only selected Dive Lab trained Technicians are authorized to teach the Technicians Course
- Only Dive Lab authorized Technicians may teach the KMDSI Operator/User Course
- Course curriculum must be presented within the guidelines set-up in the repair technician's guide and slide show
- This presentation is available at no charge from www.divelab.com for the use of Kirby Morgan Customers & users of Kirby Morgan Diving Equipment ONLY
- **THIS MATERIAL MAY NOT BE CHANGED OR MODIFIED WITHOUT PERMISSION FROM DIVE LAB**

OPERATOR / USER COURSE

- This class was derived from the Helmet Monthly Inspection Checklist Appendix A2.2
- Instructors should use the guide along with the other information provided in the Maintenance Manuals to teach divers, tenders, and diving personnel how to perform routine maintenance set-up and adjustments
- Instructor guide follows along with the Monthly inspection checklists for all the KMDSI Helmet models
- Students should use the monthly helmet inspection sheet "Appendix A2.2 and all daily checklists for this class

OPERATOR / USER COURSE

- All of the checklists constantly undergo minor changes, as with the operations and maintenance manuals
- All users are urged to routinely check the KMDSI and Dive Lab web pages for updates to the checklists and procedures

OPERATOR / USER COURSE

- The Monthly Maintenance Inspection Checklist Appendix A2.2 for each model of KMDSI Helmets is the **minimum recommended maintenance**
- Monthly maintenance should be performed at least once a month with Helmet in continuous use, (used for more than 20 diving days in a month)
- At least every two months with Helmets used less than 10 diving days a month

OPERATOR /USER COURSE

- All cleaning of components should be done in accordance with the applicable Operation and Maintenance Manual
- Perform the Neck Dam/Ring Assembly, Helmet, Side Block, and Demand Regulator procedures without gas supplies connected

OPERATOR / USER COURSE

- Attach the gas supply at appropriate step of the Side Block/Demand Regulator procedure
- The checklist is only a guide, use the specific Operations and Maintenance manual for the helmet being serviced

OPERATOR / USER COURSE

- Persons that received operator user training have a responsibility to ensure helmets and masks they set up and work on are, set-up and adjusted in accordance with pre-dive checklists and Operations/Maintenance Manuals
- Operator/Users should periodically check the Dive Lab and KMDSI web page for manual changes and updates, at www.kmdsi.com or www.divelab.com
